## Bowling Fund-raiser a Success

Thank you to everyone who participated in the bowling fund-raiser for Big Brothers and Big Sisters of Washington County. This year the Review and Herald had 31 bowlers on seven teams. The high individual bowler was Judy Alexander, with a score of 187. The highest team was the Bindery Team, with a combined score of 607. The team that raised the most money was the Periodical Team, with \$1,087.10. The combined total raised was \$1,844. We appreciate

all of our coworkers who were willing to donate prizes for the drawings or sponsor their coworkers.—Dave Griffiths.

The Review and Herald was also mentioned in the *Herald-Mail* on April 7 in an article detailing the event. Here's the address of that article: [http://herald-mail.com/?cmd=displaystory&story\\_id=190494&format=print](http://herald-mail.com/?cmd=displaystory&story_id=190494&format=print).

## Interested in Forming a Bowling League?

Have you ever thought about joining a bowling league to get some exercise and have some fun? To have a little friendly competition between departments? To see how much you could improve your score? If you would be interested in forming a Review and Herald bowling league, please contact Rick Lee at ext. 5260 for more information and to show

your interest. Participation would involve bowling one night per week (during the season), and the cost would be minimal. A decision will be made on whether to form the league based upon the amount of interest generated, so be sure to call if you think you might be interested in joining.

## Spring Cleaning—Keep It Pure and Simple

The best part of spring cleaning is opening the doors and windows to welcome fresh air and sunshine. Why not add to that spring freshness with natural cleaners?

Taken from the flowers, bark, leaves, and other parts of plants, essential oils are as natural as fresh air and sunshine. Many have their own properties as disinfectants, grease cutters and deterrents to pests—and they impart fresh and pleasing aromas that linger long after your chores are finished.

Natural cleaning products are increasingly available in stores, but you can also easily and economically make your own mixtures with just a few basic ingredients. Chances are some of these ingredients, such as baking soda, white vinegar, and borax, are already in your cupboards. One hundred percent pure essential oils can be found at natural products stores or online at [www.auracacia.com](http://www.auracacia.com).

Homemade natural cleaning products are versatile; many can be used for a variety of tasks. Because essential oils are in a highly concentrated form, often only a few drops are needed for a solution that can take you through several cleaning cycles. Not only do you save money—your homemade cleansers will work just as well as commercially produced cleaners without harming the environment.

“Choices abound,” says Tom Havran, aromatherapy product developer. “From pine or lemon oil, whose essences suggest more traditional cleaning aromas, to tea tree and grapefruit, which people might not think of as cleaning ingredients.”

Not sure which oil to start with? Here are some of Havran's suggestions:

Pine is inexpensive and clean-smelling. It is effective as both a disinfectant and deodorizer.

### Web Sites of Interest

[www.biblebay.org](http://www.biblebay.org) *BIBLE BAY is a Web site you can share with your friends and neighbors. Created by Pacific Union Conference Church Support Services, it features a number of Bible study resources, including LifeSavers, a 16-lesson study course that self-corrects as lessons are completed online.*

If you know of a Web site or social networking site worth sharing in *Typeline*, please send it

Lavender has a pleasing scent, is antibacterial, and deters insects, such as moths.

Tea tree oil has a sharp, spicy scent and is a good disinfectant and deodorizer.

Lemon is fresh and clean-smelling. It's also acidic, providing antibacterial and antiseptic cleaning properties.

Grapefruit has a clean and uplifting aroma that eliminates odors—even strong pet odors.

Making your own cleaning products with essential oils can be as simple as mixing 15 to 20 drops of any essential oil into a cup of baking soda, letting the mixture stand overnight so the oil can be absorbed, and then sprinkling the powder on your carpet before you vacuum.

You can also make a quick and easy disinfecting toilet bowl cleanser by combining one cup of water, one-quarter cup of liquid castile soap, and 20 drops of white thyme, lavender, or lemon essential oil in a 22 ounce spray bottle.

Spring is a time of renewal that offers a perfect opportunity to replace chemical cleansers with pure and natural essential oils. Your whole family, including your pets, will benefit.

For more spring-cleaning formulas you can make yourself with essential oils, visit [www.auracacia.com/springcleaning](http://www.auracacia.com/springcleaning). While you're there, be sure to get more information about Aura Cacia's live chat on Spring Cleaning With Essential Oils, April 17, at 7:00 p.m.
