

“It is Satan’s work to fill men’s hearts with doubt. He leads them to look upon God as a stern judge. He tempts them to sin, and then to regard themselves as too vile to approach their heavenly Father or to excite His pity. The Lord understands all this. Jesus assures His disciples of God’s sympathy for them in their needs and weaknesses. Not a sigh is breathed, not a pain felt, not a grief pierces the soul, but the throb vibrates to the Father’s heart”
(The Desire of Ages, p. 356).

Vegan Foods Finding Fans Among Meateaters

Ah, the love of the burger—it's a unifying American experience. But if the fat content in fast-food burgers makes your heart burn with shame, and meat recalls have you worrying about what's in that burger you made at home, you're not alone. Is it any wonder that interest in vegan alternatives to traditional meat meals is on the rise—even among people who still consider themselves meateaters?

“People are understandably concerned about what they're serving their families,” says Gary Torres, of Food for Life, a vegan food company that is seeing increased interest in meat-free foods. “But it's not just confirmed vegans who are seeking these alternatives. We're seeing increased interest in vegetarian and vegan foods by people who

don't consider themselves to be followers of either lifestyle.”

Vegan and vegetarian food products are going mainstream in grocery stores. Many products deliver the benefits of vegan foods without sacrificing the flavor and texture consumers demand. For example, Food for Life's new baked (not fried) Moo-phrey burgers mimic the flavor and texture of quality ground beef. And in taste tests conducted by the company, more kids chose baked Cluckphrey patties over traditional chicken nuggets. Both products are made with all-natural, nongenetically modified vegetable ingredients. Visit www.FoodforLife.com to learn more.—

New Product Highlights

Title: **Stop Laughing: I'm Trying to Make a Point**

Author: **Kim Peckham**

Kim Peckham is known around the world as a poor tipper but an excellent source of offbeat wisdom. So far, his hometown does not boast a commemorative plaque honoring him, but there's still time. Kim confronts life's many quirks with light-hearted insight and a twist of wisdom. He resides in Sharpsburg, Maryland, with his beautiful wife, Lori, whom he somehow convinced to marry him, and Reef, their 5-year-old son, who has devoted his life to the pursuit of hard candy.

"I've prayed for God to stop me from saying anything unkind. I'm not sure how that sort of prayer gets answered. Will I wake up one morning talking like Jimmy Carter? Or will God take the easy way out and just wire my jaw shut?"

"Worry is a part of life. Especially if you're a church greeter during cold and flu season."

"I have 100 billion brain cells. My question is: 'What do they do with their time?' They certainly aren't remembering where I left my cell phone."

"Suffer the little children—unless you can afford a sitter."

"Solomon forgot to mention that a wife who is more precious than rubies is a wife who can tell you where you left your car keys."

"There was no money in the Garden of Eden. Which was fine, because Adam would have been stumped for a place to keep a wallet."
